PROFILE

A motivated and detail-oriented fresher seeking a challenging role in a reputable organization to enhance skills, expand knowledge, and apply learning effectively. A proactive and collaborative team player, committed to optimizing processes, solving project challenges, and contributing innovative solutions for business growth. Eager to learn, adapt, and excel in a dynamic work environment.

PROJECTS

Travel Tro

- Designed a real-time and static bus route information system for Madurai commuters.
- Created a user-friendly interface for quick access to routes, timings, and stops.
- Optimized for smooth performance across all devices, enhancing daily travel convenience.

Replicating Apple Website

2025 - 2029

- Recreated the Apple website with a sleek, modern UI/UX, ensuring smooth animations and high performance.
- Focusing on intuitive design, user experience, and cross-device compatibility

AI-QADS

- Built an intelligent system that extracts key insights, summarizes documents, and answers queries with precision. Leveraged efficient text processing algorithms for accuracy and speed.
- Optimized for multiple document formats, ensuring versatility and usability.

AREA OF INTEREST

- Web Devolpment
- UI/UX Designing
